Lifting Material Supplies are the lifting gear specialists. We are experts in the supply of wire rope, custom made wire rope slings, chain slings, shackles, hoists and trolleys. We carry out inspection and servicing plus on-site testing of trolley beams, hoists and rigging gear. All our lifting and test engineers are LEEA qualified and ISO9001 accredited. Our depot in central Scotland stocks an extensive range of lifting equipment and our knowledgeable sales team are on hand to help with all your lifting needs.

- INSPECTION AND TESTING
- LOOSE TACKLE SUPPLIES
- WIRE ROPE SLING ASSEMBLIES

Wire Rope Slings

We manufacture bespoke wire rope slings. Single leg available with soft and hard eye, special end terminations, solid eye, hook and shackle attachments, turn buckle adjusters. Available from 1tonne to 120tonne.

Electric Chain Hoists and Wire Rope Hoists

We supply and install electric driven chain hoists and trolleys. Light crane systems for various engineering and production requirements. 100kg - 60tonnes capacities available. Electric driven, runway beam wire rope hoists and EOT crane systems available from reputable manufacturers such as Stahl, Yale and Demag. 100kg to 600tonnes full supply and installation service available.

Chain Assemblies

We offer a complete bespoke chain assembly service for Grade 8, Grade 10 and stainless steel sling assemblies. Single leg, double leg, three and four leg combinations available.

Cargo Lashing, Ratchet Straps and Synthetic Rope

Full range of chain and polyester lashing systems available. Chain tensioner, lorry load binders, ratchet belt tensioners. Lashing capacities of 1-10tonnes. Stockist and suppliers of polypropylene, polyester, nylon, high performance Dyneema® rope from 4mm dia to 220mm dia. Full range of end terminations and splicing services provided.

Manual Chain Blocks, Lever Hoists and Tirlors

Stockist and suppliers of a full range of manual chain blocks and level hoists from respected manufactures - Tractel, William Hackett, Kito and Yale. 0.5 - 60tonne capacities available. Tractel Tirlor winches, both manual and powered options available. Suitable for a variety of lifting, pulling and tensioning applications. Available with maxiflex wire rope up to 300metres long.

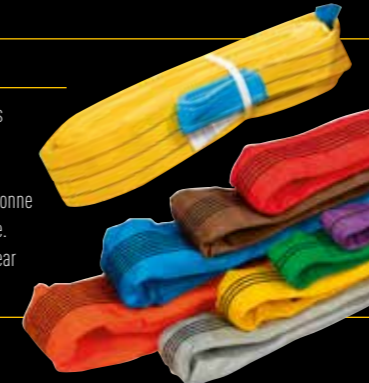

Hydraulic Jacks and Pumps

Single and double acting hydraulic cylinders, flat body pad jacks, hollow ram, threaded cylinders. Standard tonnage range 5-300tonnes, high tonnage range 100-1000tonnes. Full range of manual and powered pump sets available.

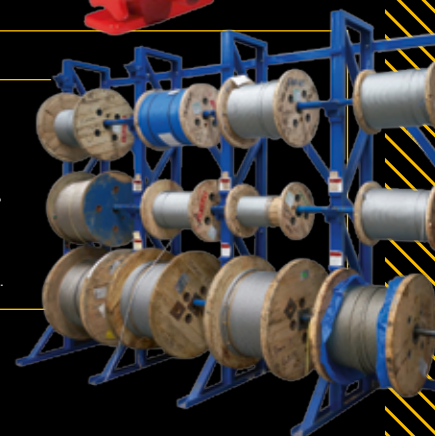

Web and Round Slings

Full range of standard 1-12tonnes available from stock. Plus larger bespoke 15-120tonnes polyester round slings available and 12-80tonne flat belt polyester slings available. Reinforced eyes and protective wear sleeves available.

Wire Rope

Stockists of a complete range of steel wire ropes from 2mm to 76mm (larger sizes available on request). Standard constructions, non rotating constructions, compacted high performance wire and stainless steel. A full range of terminations and components available.
